City Airport Bremen - Mobility portal in the Northwest

Airport Bremen is a key factor for mobility, business, leisure, and tourism connecting Northwestern Germany with Europe and the world. By offering attractive connections and serving all major hubs in Europe it represents a cornerstone for a sustainable development in Bremen and Germany’s dynamic Metropolitan Northwest region:

- Direct flights to 50 attractive destinations
- 2.6 million passengers a year
- 100 flights per day
- Located downtown with just 11 minutes by tram from the Airport to Bremen’s business district, a unique selling proposition in Germany
- Nonstop connections to European hubs in Frankfurt, Munich, Zurich, Amsterdam, Copenhagen, Brussels, Paris, and London

Airport Bremen with its 400 service professionals from 18 nations offers a wide range of key advantages to the world of travellers and businessmen.

First choice – high efficiency
Airport Bremen’s portfolio provides a wide range of planning, design, operational, commercial and management services. Fast and convenient connections to the airport as well as first-class service guarantee a quick and comfortable departure from Bremen. This makes Airport Bremen a perfect hub for efficient business:

- Out of 800 flights per week, more than 200 regular airline services connect the Northwest of Germany with other economic hotspots of Europe and the world
- Excellent access with direct links to the A 1 and A 281 motorways

Via Bremen Worldwide
Intermodality with major focus on offering seamless transportation is a central success factor at Airport Bremen. A keystone of Airport Bremen's commitment is to provide efficient and customer-oriented intermodal solutions:
• Travellers benefit from direct access from Airport Bremen to public transport and shuttle services making it a showpiece for intermodal transportation
• Biggest multi-storey car park in the Northwest: 4,500 parking spaces (2 multi-storeys, 1 outdoor car park) with 420,000 parkers p.a.
• 50 direct routes to destinations throughout Europe - further global destinations can be reached easily from Airport Bremen via the major hubs

Agenda for growth
Located in the centre of Germany’s Northwest, Airport Bremen is the airport of choice for an increasing number of international passengers, above all from the Netherlands, Great Britain, and Scandinavia.

• Serving an expanded catchment area of 7 million inhabitants located within a 90-minute driving radius of the airport
• Portal for the entire Metropolitan Northwest region: for the Oldenburg, Emden, Cuxhaven and Wilhelmshaven regions, the North Sea islands, the Groningen region in the Netherlands and other areas extending up to the Danish border

Air cargo – high process quality and perfect infrastructure
City Airport Bremen’s logistics competence results above all from the experience of staff and the care they apply. Being linked to Europe’s largest logistics centres and the maritime supply chain, extremely fast connections to the airport and full-service capabilities under one roof, Airport Bremen is the number one air-cargo hub in the Northwest of Germany – ideal for intermodal transport concepts:

• Exemplary facilities and procedures which guarantee rapid, safe and efficient processing of freight
• Continuous customer-oriented process and service innovations
• Maximum security is ensured: with the new large X-ray system, whole pallets and containers can be scanned
Airport City - A business location with a class of its own

A quality, cutting-edge location for business and investment has sprung up around the airport – it’s called Airport City Bremen, a new business centre for Northwest Germany:

- Already 500 companies with 16,000 employees are based in the Airport City
- Global Players such as Airbus, EADS Astrium and OHB-System AG have settled there
- University of Applied Sciences’ division of aviation
- Lufthansa Flight Training Pilot School

With the airport as a vibrant centre and gateway to the world, Airport City is emerging as a pioneering location for connecting business, touristic and scientific communities and maximising synergy potentials.

Overall environmental benefit

The goal of Airport Bremen’s environmental management is protecting and enhancing the environment by improving environmental performance. The four guiding principles of our environmental management efforts are: technical progress, efficient infrastructure, optimised operations, and economic instruments. Particular attention is put on optimising energy consumption in order to minimise environmental impact.

Airport Bremen contributes to protecting the environment – in many innovative and state-of-the-art ways:

- Participating in the international cooperation project Green Sustainable Airport (GSA)
- Expanding e-mobility fleet
- Rainwater is naturally recycled for further use
